

Something Good

Estelle

Courage!

I was hurt for so long
Doesn't matter who was right,
Doesn't matter who was wrong,
All that matter is I'm back where I belong
Yeah!

Got my girls, I was down
I was looking everywhere in the long way
But baby then I opened up my eyes and I realized
Yeah!

I got something good for you baby
I got something good for you baby
I got it, I got it, I got it, I got it
I got something good for you baby
I got something good for you baby
I got it, I got it, I got it, I got it

For the rest of my life, all this good I've got to use
Ain't nothing more to lose, I feel better
Now I'm back where I belong, yeah!
Got a think 'bout my love,
There's a price you've got to pay
Can't control the way it gets higher, higher, higher every day!
Yeah! C'mon!

I got something good for you baby
I got something good for you baby
I got it, I got it, I got it, I got it
I got something good for you baby
I got something good for you baby
I got it, I got it, I got it, I got it

If you're with me and you know you got it
Then let me hear you say I got it
I got it, I got it, I got it, I got it

If you're with me and you know you got it
Then let me hear you say I got it
I got it, I got it, I got it, I got it

I got something good for you baby
I got something good for you baby
I got it, I got it, I got it, I got it

Devotion/Interlude

I can see your eyes, your eyes, your eyes
I can see your eyes, your eyes, your eyes
No one ever control the way
my heart beats you take the lead
I'm your biggest, I'm your biggest fear
Your eyes, your eyes
Your eyes, your eyes
I can see your eyes across the room chasing how I look
I can make you mine then you touch me and I know the truth
I belong to you, your heart have mine
No one ever control the way

my heart beats you take the lead
I'm your biggest, I'm your biggest fear
Your eyes, your eyes
Your eyes, your eyes

Passion
