

This Lullabye

Esthero

And if I give you what you want
And everything you need, honey
Could you deliver that to me?
Could you give yourself completely
To a love like this and all it can bring?
Picket fence, a diamond ring
I really did not think so

Just say 'goodbye', don't ask me why
I'll listen to this lullabye
Don't say you'll try after tonight
All that I am is this lullabye

If I am all that you desire
Then why are you never ever satisfied?
I could give the world
And you'd still cry your refrain again and again
And I might stay if you would bend
But I really did not think so

Just say 'goodbye', don't ask me why
I'll listen to this lullabye
Don't say you'll try after tonight
All that I am is this lullabye

Just say 'goodbye', don't ask me why
I'll listen to this lullabye
Don't say you'll try after tonight
All that I am is the lullabye
