

# Millennium Child

Estradasphere

Open your eyes little baby  
Mother has given you life  
Be not afraid little baby  
You're born to be Millennium Child

What will you see  
As the world turns round you  
And time has found you

A place to see  
Minds dissolve into solace times  
While you grow up strong  
Known right from wrong  
Do what you can  
My baby

On your own feeling no disguise  
Show us all how to live...
