

## 4 Play 2 Love (Start Over)

Etana

Found a new love, found a new lover  
Found a new love, found a new lover  
Found a new love, found a new lover  
But I still want you

I know you're searching, I'm searching too  
And I found something  
But it's not with you  
Let's be honest, this thing we do  
Is something few people understand  
Cause you're my lover but not my man  
Let's start over, I found a love that's new  
Let's start over, now we play by my rules  
Let's start over, I found a love that's new  
Now you're not my only lover so let's start over

This may hurt you but I can call him mine  
And when I call you we can't speak after nine  
My new man loves me, enough to call me wife  
But still I can't imagine what would it be  
Without you in my life

So let's start over, I found a love that's new  
Let's start over, now we play by my rules  
Let's start over, I found a love that's new  
Now you're not my only lover, let's start over

Guess we can never just be friends  
And I'm not saying this is the end  
I won't forget what we've been through  
I've been in love with you all my life  
Threw all your lovers and now your wife

Let's start over, I found a love that's new  
Let's start over, now we play by my rules  
Let's start over, I found a love that's new  
Now you're not my only lover, let's start over  
Let's start over, I found a love that's new  
Let's start over, now we play by my rules  
Let's start over, I found a love that's new  
Now you're not my only lover, let's start over
