

Better Tomorrow

Etana

There'll be a better tomorrow [x4]
There'll be a day
There'll be a way
There'll come a time to sing
A brand new song
No more pain
No more sorrows
No more hungry children, no more tears
There'll be a better tomorrow [x4]
That's so wrong
Move your feet
We're gonna sing today
On a brand new beat
Whether your high
Whether you're low
Let's be sure you know
There'll be a better tomorrow
There'll be a better tomorrow
There'll be a better tomorrow [x3]
No more war
No more religions division
Only love ain't gonna..
To heal the nation
Now is the time, now is the time
To recognize, when we're alive
Today is borrowed
So live it right
There'll be a better tomorrow [x4]
Everybody crawls the world, shows them dub
Everybody crush the world, clap your hands
Everybody crawls the world, move your feet
Everybody crawls the world, shows them love
There'll be a better tomorrow [x4]
There'll be a better tomorrow [x3]
Must be a better tomorrow
Tomorrow will be better, tomorrow yeah [x4]
Tomorrow will be better, tomorrow will be better
Tomorrow will be better, tomorrow will be better
There'll be a better tomorrow [x3]
Must be a better tomorrow
There'll be a better tomorrow [x4]
Tomorrow will be better, tomorrow will be better
Tomorrow will be better, tomorrow will be better
