

Don't Forget

Etana

Are you pleased with what you see?
When you look inside your mirror?
Are you truly, truly happy?
You need to ask yourself these questions
Cause if you not then
I would advise you to stop from living a lie

Don't stifle you conscience
No mama seh Wah inna dark know seh it muss come out inna light

Don't forget just fi know yuhself's a blessing
Don't forget second guessing is regressing
Don't forget every step yuh mek yuh blessed
Don't forget
Don't u fret

People fight within themselves
Just to fit the world's expectations
It is hazardous to your health
And you've got to express yourself

No bother watch them
No follow trend but build yuh own strength

Don't stifle you conscience
No mama she Wah inna dark know seh it muss come out inna light

Don't forget just fi know yuhself's a blessing
Don't forget second guessing is regressing
Don't forget every step yuh mek yuh blessed
Don't forget
Don't u fret

So be pleased with what you see
When you wake up every morning
Just be satisfied within
Then you'll see how life is sweet
No bother watch them
No follow trend but build yuh own strength

Don't stifle you conscience
Wah inna dark know seh it muss come out inna light

Don't forget just fi know yuhself's a blessing
Don't forget second guessing is regressing
Don't forget every step yuh mek yuh blessed
Don't forget
Don't forget
