

Fly

Etana

When I'm with you
I feel the sparks flying
Like a cyclone
I feel my head spinning
Ooh and it feels so right
I feel like I been drinking yeah
I'm on a high for you tonight
And I feel my heart racing

I wanna run to you when I'm over-due
My desire is burning
I wanna reach the place where you take me high
Baby over and over again

Cause you're so amazing
I can feel you from afar
You come with gunz blazing
You shoot me and I fall
Yeah

When you touch me, you hold me
I could fly
When you kiss me, you heal me
I'm alive
Oh oh oh
When you touch me, you hold me
I could fly
Baby when you kiss me, it heals me
I'm alive
Oh oh

Who else on earth could please me
And fill me the way you do
Who else could ever steal my heart away
You're my greatest temptation
That I don't wanna be free of
And I will do anything to make it stay this way

I wanna run to you when I'm over-due
When my desire is burning
Wanna reach the place where you take me high
Baby over and over again

Cause you're so amazing
I can feel you from afar
You come with gunz blazing
You shoot me and I fall
Yeah

When you touch me, you hold me
I could fly
When you kiss me, you heal me
I'm alive
Oh oh oh
When you touch me, you hold me
I could fly
Baby when you kiss me, it heals me

I'm alive
Oh oh

When you touch me, you hold me
I could fly
When you kiss me, you heal me
I'm alive
Oh oh oh
When you touch me, you hold me
I could fly
Baby when you kiss me, it heals me
I'm alive
Yeah yeah
