

Mr. Jones

Etana

Eem
Hey
Hmmm yeah
Eeem
Yeah

When I think about you
Does something to my mind, ooh
You're taking me higher every time
You can take me to the park
We could chill together
Gazing at the stars
We could make it last forever
Ooh, come bring your love to me
I really wanna take you there
But I can only imagine

Mr. Jones, Mr. Jones
I really want you to come over
Oh, Mr. Jones
Can I get your number
Ooh, come bring your love to me
I really wanna take you there
But I can only imagine

Come and see me now
Let's spend some time together
Ooh, when the rain is pouring down
Let me take you there
We can make it last forever

You can take me to the park
We could chill together
Gazing at the stars
We could make it last forever
Ooh, come bring your love to me
I really wanna take you there
But I can only imagine

Mr. Jones, Mr. Jones
I really want you to come over
Oh, Mr. Jones
Can I get your number
Ooh, come bring your love to me
I really wanna take you there
But I can only imagine

You can take me to the park
We could chill together
Gazing at the stars
We could make it last forever
Ooh, come bring your love to me
I really wanna take you there
But I can only imagine

Mr. Jones
Mr. Jones

Mr. Jones, Mr. Jones
