Em em  
Information  
What you know

Doesn't matter where you're coming from  
But it matters where you plan to go  
You should know eeem  
A seed will be buried beneath the ground  
Seem to die  
But it will grow  
Uuuh  
Cause out of the darkness there must come light  
And if we will win  
We must stand and fight  
How can we expect to truly progress  
With all these damn imaginary lines  
Look how much we been through  
And yet still we survive  
There's not a mountain that we cannot climb  
We know the power that we have inside  
And all that we could do if we were united

Come together now  
Come together come together come together  
In formation yeah  
Oh Africa  
Oh Africa

It's written somewhere that  
One day we gon come together  
Cause our minds is greater than gold minds  
And our wealth is greater than paper  
Boom  
Clear to see selah  
I know the rest a dem really fear yah  
They don't wanna see us come together  
That's why they teach divide to conquer  
They not gon like  
But out of the darkness there must come light  
And if we will win we must stand and fight  
Removing these damn imaginary lines  
So much we been through and yet still we survive  
Yahweh has given the power inside  
And if you listen I know that you hear  
That the universe is calling us to unite

Come together now  
Oh Africa  
Come together come together come together  
In formation yeah  
Oh Africa  
Oh Africa

Basi weka niweke  
Siwezi pekee  
In togetherness that's where all our strength is  
Juu Pamoja Tunaweza

Maana mungu tuko naye  
Ati pe a ni alaye  
Plus the will to grow  
We need nothing more cause

Umoja is the way to to go  
Upendo is the way to grow
