

Reggae

Etana

Never see you rock so
Now it's time to play, ay
You move me like the wind blows
As night becomes a day
I know you want to go slow
To where, I don't know
But rocking is the true road
Hear me when I say

You're just like reggae
You hit me like a drum
Reggae, play chords and I will strum
Reggae, sing out and I will come, come, come, come
Oh reggae, you're the one

Once you tried to leave me
Said I was on my own
Music won't deceive me, no
I won't be alone
I know you want to go slow
To where, I don't know
But rocking is the true road
Hear me when I say

You're just like reggae
You hit me like a drum
Reggae, play chords and I will strum
Reggae, sing out and I will come, come, come, come
Oh reggae, you're the one

Reggae, you're, mhm
Will strum
Sing out and I will, oh yeah
Alright, yeah, yeah, yeah
Hear me when I say
Rock soul, never seen you, rock soul
Reggae you're the one
Uh, reggae you're the one
