

## Flight Recorder

Eterna

Trying to find my life... My life has no memory. Trying to know my name... My name in a little insanity.

And the things I remember now, 'bout these things thirdy to better. My past is a like a flight-recorder... Will never be found out!

I don't wanna be lonely For the rest of my days, Stay with me... STAY WITH ME! And nowadays is like a shadowy future Don't understand how I get the sense of my own dreams!

Trying to Know your name Your name is not a mistery Trying to see your face Close my eyes to see you

Sometimes I thing that I am Less important than I want to be Because I knew your name Reflex of a new reality!

I don't wanna be Lonely for the rest of my days... Stay with me ... STAY WITH ME! And nowadays is like a shady future Don't understand how I get the sense of my own dreams!

Really, I would discovery a way to get out Of this life of a stucker on the ground And I haven't choose these noise way You're the only one! (The only one!)

I don't wanna be lonely For the rest of my days, Stay with me [STAY WITH ME!] And now nowadays is like a shady future Don't understand how I get the sense of my own dreams!

Really, I would discovery a way to get out Of this life of a stucker on the ground And I haven't chose these noise way You're the only one! (The only one!)

Only one... Yeah !
