

## Sweet Isolation

## Eternal Deformity

Great creator of my false dreams  
Hanging them between two poles  
Tastelessness of the magic fruit  
Count me in for a big surprise

Days are numbered and all we have  
Is just a fear of that light  
Why don't you just let me be  
Don't want your signs

Great creator of my false dreams  
Placing logs for more to come  
Bitterness of the sweet delusion  
Getting there with no remorse

Long uneven roads  
Serpentine steep paths

Ingrowing nails  
Dowager's Hump

Great creator of my false dreams  
Come and get me while you can  
Facing death brings me closer  
To those shapes I hate
