

Cauterize

Eternal Legacy

Sick of this life, pulling your teeth, ever so blind, to see th
rough your mind
Banging our heads, in every way, blood bath disease...
Like a battle, an endless war, this moment of time, another hat
e crime
Chaos with hell, shredding his tears, from this avalanche...

Hear the cry... and feel my pain...
There's no time to think...

Throw it away...
To think your life's all play...
In world on fire just take it back...
It's an institution
Cauterize all your wounds...
Stop standing around, play the game...
Politicians are the pain...

Right here we are right now the call, every which way, another
complaint...
Life's a drag, a brainwashing fad, so stand up front, to take a
stab ...

Hear the cry... and feel my pain...
There's no time to think or blame...
Every soul every slave
Cauterize your way it's...

To throw it all away...
To think your life's all play...
In world on fire just take it back...
It's an institution
Cauterize all your wounds...
Stop standing around, play the game...
Politicians are the pain...
