

# Don't Make Me Wait

Eternal

Oh yeah

Don't make me wait for you  
Come on now  
Don't be a fool, just think about it baby  
Don't make me wait for you  
Precious is my time, don't funk around it baby

Suppose our love goes round and round  
Before you know it's settled down  
Give me a reason to say "I do"  
I'm tired of playing this game with you  
Oh my god, I can't deny it  
Almost fell in love with you  
Thinking everything would be so cool  
Oh la la, oh my god, I've got to fight it  
I never wanna be with you  
'Coz I never wanna face the truth

Don't make me wait for you  
Don't be a fool, just think about it baby  
Don't make me wait for you  
Precious is my time, don't funk around it baby

I feel a fire within my soul  
Confuse my body and take control  
Why do you play me, I feel so cold  
Just wanna please you, 'coz you're my one

Oh la la, oh my god, I can't deny it  
Almost fell in love with you  
Thinking everything would be so cool  
Oh la la, oh my god, I gotta fight it  
Never wanna be with you 'coz I never wanna face the truth  
Don't make me wait for you  
Don't be a fool, just think about it baby  
Don't make me wait for you  
Precious is my time, don't funk around it baby

(Don't make me wait)  
Don't make me wait for you, no

I'll be there for you  
As I always do  
I'll be there for you  
'Coz your love is true

Don't make me wait for you  
Don't be a fool, just think about it baby  
Don't make me wait for you  
Precious is my time, don't funk around it baby

(Don't make me wait for you)  
Don't make me wait coz I'm dying for you  
(Don't be a fool just think about it baby)  
Give me your heart 'coz my love is so true  
(Don't make me wait for you)

Don't make me wait coz I'm dying for you  
(Precious is my time don't funk around it baby)  
Give me your heart 'coz my love is so true  
(Don't make me wait for you)  
Don't make me wait for you  
(Don't be a fool just think about it baby)  
Don't make me wait
