

What'cha Gonna Do

Eternal

One, two
What'cha gonna do
One, two
What'cha gonna do
*One, two what'cha gonna do
Ain't no where to run when he's looking for you
Three, four he's knocking on the door
Ain't no where to run you can hide no more
Don't you ever listen to what the older people say
Child you're no different check your life
And what you're going through
There's a place for you and me
If it's something say do believe
Pray for a miracle
And hope your life won't be in vain
*Repeat (2x)
Ain't no need to worry
Just call on him and he'll be there

In your darkest hour
He will be your guiding light
Do not be discouraged, no
There will be a better day
Just lift your head up high
And everything's gonna be okay
*Repeat (2x)
Ain't no where to go to
No where to run
No where to hide
Cause he's all around you
Take a chance he'll love you
Don't you turn away
*Repeat (2x)
Open up and you'll feel good
Stand up and and set you free
He'll be there to guide you
Cause he's the one that cares
*Repeat until end
