

# Hello Goodbye

ETERNITY ∞

Every time you say hello  
Every time you say hello

I float I drift I melt away  
Where my mind and my soul are an empty space  
No thoughts control No bad mistakes  
And I rest in the peace of being half awake  
There are times we know just what to do  
And there are times love and life get the best of you  
Don't rely on lullabies for the truth  
Dig deep and you will reach what pulls you thru

Every time you say hello  
Every time you say goodbye  
Every time I lose my heart my mind  
Anytime you say hello  
It's hard for me to say goodbye  
It's hard for me to say goodbye

No sound no taste of the past  
Mighta been, coulda been no looking back  
No neon lights no heavy steps  
Let me dream in the land of no regrets  
I won't recall your touch your eyes  
Disappear or get lost in the hands of time  
My heart was yours but now it's mine  
To seek to soar to leave open wide

Every time you say hello  
Every time you say goodbye  
Every time I lose my heart my mind  
Anytime you say hello  
It's hard for me to say goodbye  
It's hard for me to say goodbye

Where the road may take me  
Where the wind will blow  
If the sunset breaks me  
Only time will tell  
Only time can heal  
Only time will know  
Maybe I'm a dreamer but I just don't know  
Cause I can't get clearer from you

Every time you say hello  
Every time you say goodbye  
Every time I lose my heart my mind  
Anytime you say hello  
It's hard for me to say goodbye  
It's hard for me to say goodbye  
Every time you say hello  
Every time you say goodbye  
Every time I lose my heart my mind  
Anytime you say hello  
It's hard for me to say goodbye  
It's hard for me to say goodbye
