

## How Far

ETERNITY ∞

When my dark horses come for me  
I can't say no  
No mercy never a reprise  
I can't say no  
Addicted to the velocity  
I can't say no  
They are the secrets that I keep

Oh, how far, how deep  
How dark do you think you go?  
Oh, how far, how deep  
How dark do you think you go?  
And do you really know  
Just how high or just how low?  
Oh, how far, how deep  
Like storms on Jupiter

Dark horses plague and follow me  
And I hold on  
They bled the venom in my dreams  
And I held on  
We all have a side no one should see  
We can't say no  
My hands are strong but they're not clean

Oh, how far, how deep  
How dark do you think you go?  
Oh, how far, how deep  
How dark do you think you go?  
And do you really know  
Just how high or just how low?  
Oh, how far, how deep  
Like storms on Jupiter

The words that you never thought you'd say  
Mistakes that you never thought you'd make  
We're caught up in the storm  
Yeah  
We're caught up in the storm  
And you suffer from the storm that is you

Oh, how far, how deep  
How dark do you think you go?  
Oh, how far, how deep  
How dark do you think you go?  
And do you really know  
Just how high or just how low?  
Oh, how far, how deep  
Like storms on Jupiters
