

So Deep

ETERNITY ∞

So deep is the night
So deep is the night
I forget what to do in the light
So deep is the night
So deep is the night
I forget what to do in the light

So deep is the night
And these neon lights
Don't know how dark I feel inside
Tonight it's silent as snow
My mood is low
And I head towards where I shouldn't go

So deep
So deep is the night
So deep is the night
I forget what to do in the light
So deep is the night
So deep is the night
I forget what to do in the light

The music plays on
It carries me strong
And I find what I need to face the dawn
Now I am taking my turn
I've got love to burn
And this time I will savour what I've earned

So deep
So deep is the night
So deep is the night
I forget what to do in the light
So deep is the night
So deep is the night
I forget what to do in the light

So deep is the night
So deep is the night
I forget what to do in the light
So deep is the night
So deep is the night
I forget what to do in the light
