Honey in The Honeycomb

Ethel Waters

What have I got that the others ain't That always seems to please T'ain't my perfume, nor my fancy paint But when I charm the men all swarm Just like they was bees

There's honey in the honeycomb
There's sugar in the cane
There's oysters in a real oyster stew
And bubbles in sweet Champagne

There's jelly in the jellyroll And sap in every tree There's honey in the honeycomb And, Honey, there's love in me

There's honey in the honeycomb
There's nectar in the peach
There's candy in a coconut shell
And mussels on every beach

There's money in the savings bank And I personally guarantee If there's honey in the honeycomb Then, Baby, there's love in me
