ETOLUBOV

Breathe you in  
Filling your silence  
You and me  
Feeling so timeless  
Totally pure  
Now it's just me all over you  
I am all over you

Love within  
Blooming desire  
Skin to skin  
Hotter than fire  
We are the same  
Hang on every word that you say  
Every word that you say

Мое притяжение  
Особенно сильное  
This love never fading  
Its growing inside of me  
Моё притяжение  
My love is the remedy  
My love is the remedy

Мое притяжение  
Особенно сильное  
This love never fading  
Its growing inside of me  
Моё притяжение  
My love is the remedy  
My love is the remedy

I reveal  
All of your secrets  
You and me  
Stillness  
Never enough  
I want you to be so in love  
Absolutely in love

Мое притяжение  
Особенно сильное  
This love never fading  
Its growing inside of me  
Моё притяжение  
My love is the remedy  
My love is the remedy

Мое притяжение  
Особенно сильное  
This love never fading  
Its growing inside of me
