

## Either Way

Etro Anime

There's a gun to your head will you pull or bleed  
And keep your view of your identity  
Tied with the need for a perpetual enemy  
Will you prove your manhood to me we'll see

I wish you knew you didn't have to  
But either way I'll still love you

A hostile world is easy to sell  
An open world is easy to tell  
Of prosperity and dignity for those who fell  
Making it reality seems to be hell well

I wish you knew you didn't have to  
But either way I'll still love you  
I wish you knew you didn't have to  
But either way I'll still love you  
I'll still love you
