

# One Night

Etta James

Call me a fool  
Send me away  
I've got to say  
It's you I adore

Alone and in love  
Falling apart  
I followed my heart  
Straight to your door

Face to face  
With all honesty  
I would be grateful  
If you'd give to me

One night to lay in your arms  
One night could it be that I was born  
To make every dream  
You ever had come true

Oh in one night  
Oh just one night, with you  
Oh baby

Standing this close  
The sound of your voice  
It leaves me no choice  
I offer my love

Am I so wrong to think you  
Think you might fall?  
Cause baby you're all  
You're all that I'm thinking of

Face to face  
With all honesty  
I would be grateful  
If you'd give to me

One night to lay in your arms  
One night could it be that I was born  
To make every dream  
You ever had come true

Oh in one night  
Oh, one night with you

One night to lay in your arms  
One night  
One, one night

Face to face  
With all honesty  
Call me a fool  
It's you I adore
