

# Slow And Easy

Etta James

Now you're always rushing baby  
Always in a hurry  
Making lots of tracks, gettin' nowhere  
And that makes me worry  
Cos when you start loving me honey  
Please take your time  
A sixty minute man just won't do  
I'm putting my case on the line

When you start loving me babe  
When you start loving me babe  
When you start loving me  
Ooh, take it slow and easy  
Slow and easy

Now when love me baby  
Don't act like you're going to put out no fire  
When you start working on my case  
Take as much time as you require  
I don't want you, no no  
To be in no rush  
Honey, groove me, upset me  
With your loving touch

When you start loving me babe  
When you start loving me babe  
When you start loving me  
Ooh, take it slow and easy  
Slow and easy

I know love makes the world go round  
And that's a real true fact  
And when you love me real good honey  
Oh boy, you're on the right track  
Now listen, just take your time now  
And do the job right  
Cos when you get your thing together, baby  
You have better be a little tight

When you start loving me babe  
When you start loving me babe  
When you start loving me  
Ooh, take it slow and easy  
Slow and easy

Do the job slow and easy honey  
Real slow and easy, baby  
Work on my case right now honey  
Go on and turn me on boy  
Ooh, sock it to me honey  
Slow and easy, baby  
Lay it on me baby, right now  
Not talking 'bout tomorrow but right now, honey  
Ooh baby, throw it on me  
Lay it on me, sock it to me, push it to me
