

You Got It

Etta James

If anyone knows the loving I dig
If anyone can make me jump off the Tallahassee Bridge
If anyone got the sweet loving I want
Throw it on my stronger and keep me at home

You got it, you got it ooh
You got it, baby you got it

Sometimes the grass looks greener on the other side of the fence
But I ain't going nowhere cos I've got good sense
Ain't nothin' out there in the street that I want
Whatever I need, I got it right here at home

You got it, oh you got it
You got it and I need it

I don't need no medicine when I'm feeling ill
My man fills my prescription without a single pill
I won't need no other man, oh when I'm feeling low
My man's got all I need and little more

You got it, ow
You got it and I need it

If anyone's got the loving I dig
Oh, I can make my little heart at ease
If anyone's got everything that I want
Baby, I don't wanna have to go 20 miles outdoors

You got it, baby you got it
You got it and I need it, ow
You got it, baby I need it
Baby you got it and I need it, ooo
You got it, got it, baby I need it, need it
Ooh you got it
