Don't wanna let you go

Don't wanna let you go go go

Don't wanna let you go

Don't wanna let you go

The door that was closed around 12

A dream that a six-years-old child had

The night gets longer, the moon shines bright

The tears I held back even though I wanted to hold you in my arms

My silent breathing for you who are soft-hearted

The child who lost words while looking up the sky

Where do you Where do you Where do you go

It gets dark You'll get lost

What do you What do you What do you want

I'll never leave you alone anymore

We got to have it

The falling stars over our heads

I exist in your universe Right now

Feel me inside it

Don't wanna let you go

We got to have it

The wind holding our hands

We exist in each other Right now

I'll never leave you

Don't wanna let you go

Don't wanna let you go go go

Don't wanna let you go

Don't wanna let you go

As if it's nobody and nothing
As if you'll disappear when I open my eyes
I am scared about tonight The moon is overshadowed

Where do you Where do you Where do you go
It gets dark You'll get lost
What do you What do you What do you want

I'll never leave you alone anymore
We got to have it
The falling stars over our heads
I exist in your universe Right now
Feel me inside it
Don't wanna let you go

We got to have it
The wind holding our hands
We exist in each other Right now
I'll never leave you
Don't wanna let you go
Don't wanna let you go go go
Don't wanna let you go
Don't wanna let you go

Baby I don't wanna break you
Walk with me anywhere
Forget the hurtful days
Oh Baby I don't wanna change you
I'm not lying, my baby
I won't run away from you
I know I can never let go

We got to have it
The falling stars over our heads
I exist in your universe Right now
Feel me inside it
Don't wanna let you go

We got to have it
The wind holding our hands
We exist in each other Right now
I'll never leave you
Don't wanna let you go
Don't wanna let you go go go
Don't wanna let you go
Don't wanna let you go
