

The Medicine Does Not Control Me

Euringer

The medicine does not control me
The medicine does not control me
The medicine does not control me
I control the medicine
The medicine does not control me
The medicine does not control me
The medicine does not control me
I control the medicine

You and all these tracks
Are gonna make a loser out of me, loser out of me
You and all these tracks
Are gonna make some bitter enemies, some bitter enemies

I can't stop chasing that high
That never fails to amuse me
I can't stop chasing that high
That never fails to abuse me

C'mon, baby, let's get high
C'mon, baby, let's get high
C'mon, baby, let's get high, let's get fucked up we're never gonna die!
C'mon, baby, let's get mad
C'mon, baby, let's get mad
C'mon, baby, let's get mad, have something so good so bad so fast

The medicine does not control me
The medicine will not control me
The medicine will not control me
I control the medicine

You and all these tracks
Are gonna make a loser out of me, loser out of me
You and all these tracks
Are gonna make some bitter enemies, some bitter enemies

I can't stop chasing that high
That never fails to amuse me
I can't stop chasing that high
That never fails to abuse me

C'mon, baby, let's get crazy
C'mon, baby, let's get crazy
C'mon, baby, let's get crazy, drugs and a world that we never ever made
C'mon, baby, let's go to war
C'mon, baby, let's go to war
C'mon, baby, let's go to war, function at a higher level than I ever have before

The medicine does not control me
The medicine does not control me
The medicine does not control me
I control the medicine

You and all these tracks
Are gonna make a loser out of me, loser out of me
You and all these tracks

Are gonna make some bitter enemies, bitter enemies

I can't stop chasing that
I can't stop chasing that
I can't stop chasing that, high
I can't stop chasing that
I can't stop chasing that
I can't stop chasing that, high

(I can't stop chasing that
I can't stop chasing that
I can't stop chasing)
