# Whenever You're Ready

**Europe**

You keep it coming heavy and hot
Keep it running give it all you got

Lay it on the line
Pawed the way with overtime
Always put the hours in
For our sweet fantasy
Well I'm right where you first found me
Whenever you're ready
Whenever you're ready

Yeah you keep it moving you keep it strong
No sense in losing any chance we've got

Oooh with every drop of sweat
The closer you get
To everywhere you ever wanted to be
Well I'm still here you first found me
Whenever you're ready
Whenever you're ready

With every drop of sweat
The closer you get
To everywhere you ever wanted to be
Well I'm still here you first found me
Whenever you're ready
Whenever you're ready
Whenever you're ready
