

# Wings of Tomorrow

Europe

You must be dreamin'  
Or going out of your mind  
There's no way of changin'  
The world over one night

I know, baby, you need to recover  
From all the things you've been through  
Baby, you need to discover  
It ain't much left to do

But ride, ride, ride the wings of tomorrow  
(Tomorrow)  
Ride, ride, ride to change the world  
(To change the world)

You feel sorry for the nations of 1984  
And it cuts you like a razor  
'Cause you've seen it all before  
You've seen it all before

You've seen one war after another  
So many lives on the line  
You must take care of one another  
Or it's the end of time

Ride, ride, ride the wings of tomorrow  
(Tomorrow)  
Ride, ride, ride to change the world  
(To change the world)

Ride, ride, ride the wings of tomorrow  
(Tomorrow)  
Ride, ride, ride to change the world  
(To change the world)  
To change the world

You must be dreamin'  
Or going out of your mind  
There's no way of changin'  
The world over one night

I know, baby you need to recover  
From all the things you've been through  
Baby, you need to discover  
It ain't much left to do

Ride, ride, ride the wings of tomorrow  
(Tomorrow)  
Ride, ride, ride to change the world  
(To change the world)

Ride, ride, ride the wings of tomorrow  
(Tomorrow)  
Ride, ride, ride to change the world, baby  
(To change the world)
