

## Cool Blue

Eurythmics

Blue, the colour suits you, cool blue  
How will you stay this way forever?  
Blue again, it's a lasting chill to keep you cold as winter  
How can I forget you?  
I'm never gonna give you up, up  
I said, "How can I forget you baby?"  
I'm never gonna give you up, up  
I said, "Here it comes again, here it comes again, here it comes  
again', here it comes again"

Blue, the colour fools you, cool blue  
I'll never stay away for ever

How can I forget you?  
I'm never gonna give you up, up  
I said, "How can I forget you baby?"  
I'm never gonna give you up, up  
I said, "Here it comes again, here it comes again, here it comes  
again', here it comes again"  
How could she fall for a boy like that? How could she fall for  
a boy like that?  
How could she fall for a boy like that? How could she fall for  
a boy like that?

Blue, the colour suits you, cool blue  
Blue, the colour fools you  
Blue again  
Blue, cool blue  
How will you stay this way forever?

How can I forget you baby?  
I'm never gonna give you up, up  
I said, "How can I forget you baby?"  
I'm never gonna give you up, up  
I said, "How can I forget you baby?"  
I'm never gonna give you up, up  
I said, "How can I forget you baby?"  
I'm never gonna give you up, up
