

One Last Wish

Euthanasia

She will never know her destination
she's on the run from a fatal crime.
In a darkened room spending her last minutes
in this hospital, where the dreams don't exist.

A ray of hope, they are leaving you
and every lover is a nightmare.
Many times you loved with passion,
where the joy ends - there's illness and woe.

One last wish
it's to kill the pain.
You can't be lost in prayers.

One last wish
it's to find the saviour
a needle with the touch of death.

One last wish
it's the same as always
don't inspire grief.

Hatred and sadness watch your fate,
you've destroyed other lives.
In a whisper you say: „I want euthanasia“.
Hatred and sadness, like so many times.
