

Close to you

Eva Simons

I never been odd this way
I didn't think I'd let go
Cause I thought I had no back up
I was rollin' in the dark

Hidden scars
I didn't think I had love
Cause I thought I had no back up
A lie

All I wanna do
All I wanna do
All I wanna do is get close to you
Let me be, let me get close to you
Close to you
I was living a lie
All I wanna do is be close to you
I am on my way

All I wanna do
All I wanna do, all I wanna do
All I wanna do
All I wanna do is be close to you
Close to, close to, close to you

Walk this way
I never thought I'd let go
As I thought I was impactful
I was strolling through the dark

Living a lie
Falling down to get up
Was following my echo
A lie

Walk this way
I've been been trying to heal my wound
But all this space in between us makes me see the truth
I need to be close to you

All I wanna do
All I wanna do
All I wanna do is get close to you
Let me be, let me get close to you
Close to you
I was living a lie
All I wanna do is be close to you
I am on my way

All I wanna do
All I wanna do
All I wanna do is get close to you
Let me be, let me get close to you
Close to you
I was living a lie
All I wanna do is be close to you
Close to you

All I wanna do
Let me be, let me get close to you
All I wanna do
I wanna be yeah

Walk this way
I've been been trying to heal my wound
But all this space in between us makes me see the truth
I need to be close to you

All I wanna do
All I wanna do
All I wanna do is get close to you
Let me be, let me get close to you
Close to you
I was living a lie
All I wanna do is be close to you
I am on my way

All I wanna do
I wanna be, I wanna be, I wanna be
I wanna be close, close to you
All I wanna do is be close to you
Close to, close to, close to you
All I wanna do is be close to you
