

# Take Over Control

Eva Simons

Let's go take a ride in your car  
I will take the passenger seat  
Baby we don't have to go far  
Unless you wanna show  
Me at a lovely place out of town  
Where you feel most at ease  
Well you are the one that i like

Always will be time to let you know  
No way I feel when you take hold  
One single touch from you I'm gone  
Still got the rush when I'm alone

I think it is time I let you know  
Take over me I will default  
You set me free my body's your  
It feels the best when you're involved

I want you to  
Take over control  
Take over control  
Take over control

Oooh I want you to  
Take over controlllllll

Plug it in and turn me on

I want you to  
Take over control  
Take over control  
Take over control

Oooh I want you to  
Take over controlllllll

Plug it in and turn me on

Baby, baby can't you see  
That i'm giving all of me  
So it's up to you now  
We could let time pass away  
I'll make an excuse to play  
But it's up to you now  
Just wanna fulfill your needs  
That's why you taking over me  
So what do you want now?  
Take a picture, make a show  
Cause nobody has to know  
All the ways that we get down

I want you to  
Take over control  
Take over control  
Take over control

Oooh I want you to

Take over controlllll

Plug it in and turn me on
