

## Comatose

Eva Under Fire

(Someone save me from myself  
Somebody save me!)

I feel like I'm breaking down, down, down  
(Down, down, down)  
You pull me under 'til I drown, drown, drown  
(Drown! Drown! Drown!)  
I'm in over my head  
Can't keep above the edge  
Maybe I'm better off  
(Better off)

Comatose  
With every overdose  
I'm feeling so alone  
Screaming, screaming  
I think I need some help  
Empty bottles on the shelf  
Keep dragging me through hell  
Screaming, screaming  
Someone save me from myself  
(Save! Me!)  
Someone save me from myself  
(Save! Me!)

It doesn't matter what I try, try, try  
(Try, try, try)  
I keep believing every lie, lie, lie  
(Lie! Lie! Lie!)  
Crawling under my skin  
This poison sinking in  
Maybe I'm better off  
(Better off)

Comatose  
With every overdose  
I'm feeling so alone  
Screaming, screaming  
I think I need some help  
Empty bottles on the shelf  
Keep dragging me through hell  
Screaming, screaming  
Someone save me from myself  
(Save! Me!)  
Someone save me from myself  
(Save! Me!  
Somebody save me  
Save me, save me, save me, save me)

I've been through hard times  
I've been through hell and back  
I took it to the edge  
And there's no turning back  
I've been through hard times  
I've been through hell and back  
I took it to the edge  
And there's no turning back

Comatose  
With every overdose  
I'm feeling so alone  
Screaming, screaming

Comatose  
With every overdose  
I'm feeling so alone  
Screaming, screaming  
I think I need some help  
Empty bottles on the shelf  
Keep dragging me through hell  
Screaming, screaming  
Someone save me from myself  
(Save! Me!)  
Someone save me from myself  
(Save! Me!  
Somebody save me!)
