

## Drift

## Eva Under Fire

Slip away  
Behind the rain I sing your praises  
The light that made me change  
Sings to my soul  
Drift in sadness  
Heart with holes  
Drift in solace  
All alone

Burned  
Black heart  
And lonely  
Was her name  
The pavement  
He found her  
Writhing in her pain  
Kept her breathing  
Breathing

Cause she wasn't  
Breathing  
Only bleeding  
Broken and alone  
Until  
He came to take away  
The pain in her bones  
Oh she cried  
Save me  
Oh she cried  
Someone  
Save me

Burned  
Black heart  
And lonely  
Was her name  
The pavement  
He found her  
Writhing in her pain  
Kept her breathing  
Breathing

Someone  
Save me  
Someone  
Save me  
Please someone save me  
Somebody, please...

Slip away  
Behind the rain I sing your praises  
The light that made me change  
Sings to my soul

Burned  
Black heart  
And lonely

Was her name  
The pavement  
He found her  
Writhing in her pain  
Kept her breathing  
Breathing
