

Easy Way Out

Eva Under Fire

I could wait, weary eyes
Don't try to justify
To rescue you
Oh, like you always do
You always do

(Why do you call, call out my name?)
It reminds you
Here it comes, here it comes
I can see it all from here
To break your bones, break your bones
And make you turn away from your sins

I know just where you've been
Go rescue you
Oh, like you always do
You always do

(Why do you call, call out my name?)
It reminds you
Here it comes, here it comes
I can see it all from here
To break your bones, break your bones
And make you disappear
And you let it bind you, let it find you
Here it comes, here it comes
Here it comes, here it comes

Breaking, I fall
Far from thankful
Why do you call? (Call out my name)
Why do you call?
Why do you call? (Call out my name)
Why do you call?

Here it comes, here it comes
I can see it all from here
To break your bones, break your bones
And make you disappear
And you let it bind you, let it find you
Here it comes, here it comes
Here it comes, here it comes
