

Headlights

Eva Under Fire

Headlights
Inspire me
See the night
Differently
Burning in
My chest as we
Fade out
Fade out

Yeah this time I know
This time I know
I know
I know

You were my heart
Never thought I'd see the day
You were my heart
It aches for you
You were my heart
I was meant for you alone
You were my heart

Rearview
TV Screen
Plays out
Movie scene
I've only
Been here in my dreams
In my dreams

Yeah this time I know
This time I know
I know
I know

This time this time I know

You were my heart
Never thought I'd see the day
You were my heart
It aches for you
You were my heart
I was meant for you alone
You were my heart

Let go of everything
Freefall for you
I was held at the top
When I fell for you
When I fell for you
I felt the drop

You were my heart
Never thought I'd see the day
You were my heart
It aches for you
You were my heart

I was meant for you alone
You were my heart
