

Misery

Eva Under Fire

Oh, in misery
Yeah

Like fire on the first day
Higher than a jet plane
I never knew that it could feel this way
I was too far gone
I was too far in
And I didn't see it coming
But our love was just too steep
And I
Before I knew it I was in too deep
I shoulda
Shoulda known
You were wrong
In the worst way

In the worst way
In the worst way
I'm gonna walk away

You make me wanna scream
End it all and leave
Strike the match and burn our names
In flames
Gasoline
You'll forever be
In misery

Woah, woah, woah
Oh, in misery
Woah, woah, woah

Set fire to the airways
Every word that you say
Is never ever worth the time of day
You wrote a lot of lies
Trying to cash in
And I shoulda seen it coming
Our love was just too deep
And now
Your drowning in a sea of misery
I shoulda
Shoulda known you were wrong in the worst way

In the worst way
In the worst way
I'm gonna make you pay

You make me wanna scream
End it all and leave
Strike the match and burn our names
In flames
Gasoline
You'll forever be
In misery

Woah, woah, woah
Held in misery
Woah, woah, woah

Go on and light the fire
Just to watch it burn
Go on and light the fire
You're gonna get what you deserve

Woah, woah, woah
In misery
Woah, woah, woah

You make me want a scream
End it all and leave
Strike the match and burn our names
In flames
Gasoline
You'll forever be

You make me want a scream
It's like a bad dream
Strike the match and burn our names
Gasoline
You'll forever be
In misery

Woah, woah, woah
Held in misery
Woah, woah, woah
In misery
