

Surface

Eva Under Fire

I could get lost in the silence
Lost in the violence
Lost if you didn't follow me
Gone and forever
Time is whatever
Nothing matters when you're already set to drown

Way down
Way down
Way down

Shatter the surface
And break me free
Sinking you're the sound
Saving me

Time stands still in the silence
Lost in the violence
Time is forever, life moves on
Time moving onward
Timeless surrender
Nothing matters when you're already set to drown

Way down
Way down
Way down
Way down

Shatter the surface
And break me free
Sinking you're the sound
Saving me

Way down, you are the sound I heard
Way down, shattered
Way down, you are the sound I heard
Way down, shattered

You are the sound I heard

Shatter the surface
And break me free
Sinking you're the sound
Saving me

Shatter the surface
Break me free
Break me, break
Sinking you're the sound
Saving me
