

War

Eva Under Fire

It came to you
It came without warning
Like fire across the sky
Scorched away the night
It's a bitter world we live in
A cold hearted love we're given
Is it all for not just a waste of time

One word
Are you ready for war
Fight for
Fight, fight for what you stand for
Bleeding pieces
Bleeding meaning
This is my heart on the floor
One word
One word
Yeah this is war

There's change today
And there's change tomorrow
Black fire in your eyes
Swaying your resolve
This is all just a game they're playing
Giving only to take away
I would blame the world
But it's all my fault

But I see the sun that's rising

One word
Are you ready for war
Fight for
Fight, fight for what you stand for
Bleeding pieces
Bleeding meaning
This is my heart on the floor
One word one word
Yeah this is

War
This is war
I don't want your war, I don't want your
I don't want your war, I don't want your
I don't want your war, I don't want your
I don't want your
I don't want your war
I don't want your war
I don't want your
I don't want your war
I don't want your
I don't want your war
I don't want your
I don't want your war
I don't want your
War

Fight, fight for what you stand for
