

me, without you

Evan Honer

Your name still pops in my head three times a day now at least
Well it's got me wondering, do you think of me?
I never cleaned out my camera or threw away the notes
"I'll get around to it", been saying that for weeks

Well I thought a change of scenery would do me well
I thought if I eat healthier I'd like myself then maybe you would to
So I'll leave Arizona try to be someone I'm not
I'll cut out weed and soda but still something will be off
Just like me, without you

It seems you finally have peace and I still act like I do
I'm gettin' by and all but it's a mess
I won't ever be the same from you I remember all the nights and
the better days
Forgot the rest

Well I thought I'd fill my calendar and busy up my days
Take up running so I'd have less time remembering your name
Wish I could say I'm over you, but make it true
So I left Arizona just to be someone I'm not
I cut out weed and soda but something still feels off
Just like me, without you
