

# Starting Over

Evan Taubenfeld

Don't know what's been taken  
Can't find out, can't find out  
Something inside is missing  
What am I all about  
I've been too scared to face it  
Nothing that I can do  
Watching it all start slipping  
Guess my time's running out  
Running out

Everything has been changing  
Nothing good is around  
Seems like it's been forever  
Since when I knew myself  
How did I let this happen  
It's too late, now I'm through  
I guess I'm finally breaking  
This is me going down  
Going down

Just want it back  
My life again  
Gotta find a way to start it over, yeah  
Will I make it through?  
Don't know what to do  
Finally hit the bottom but it's not the end  
No, no

All I can feel is sadness  
Can't get out, can't get out  
Everyday is a battle  
Think it's time for some help  
Feels like everything I've done  
Isn't right, isn't true  
About to give it all up  
This is me going down  
Going down

Just want it back  
My life again  
Gotta find a way to start it over, yeah  
Will I make it through?  
Don't know what to do  
Finally hit the bottom but it's not the end  
No, no

I'm afraid of what's coming (coming)  
I don't know how much more I can take, no, no  
I'm afraid the end's coming (coming)  
Everything feels so wrong

Just want it back  
My life again  
Gotta find a way to start it over, yeah  
Will I make it through?  
Don't know what to do  
Finally hit the bottom but it's not the end

No, no

Just want it back  
My life again  
Gotta find a way to start it over, yeah  
Will I make it through?  
Don't know what to do  
I finally hit the bottom but it's not the end  
No, no

Just want it back  
My life again  
Gotta find a way to start it over, yeah  
Will I make it through?  
Don't know what to do  
Finally hit the bottom but it's not the end  
No, no
