

# Better Without You

Evanescence

Stand in the front but shut up till I tell you to go  
And don't get caught up in pretend cause you're not in control  
Cause this is my world, little girl, you'd be lost on your own  
Just hating and waiting and saving up

I'll do you a favor and save you if you sign on the line  
Don't worry your pretty little head about the future, it's all fine  
Whether you're wrong or you're right, doesn't matter, you're not up to the fight  
Keeping my head down 'cause they don't know what I know now

As empires fall to pieces  
Our ashes twisting in the air  
It makes me smile to know that  
I'm better without you

Now look around and remember your friends if you can  
Feeding the flames till there's no one to blame it's on your hands  
Lost in your lies, pay the price with our lives, you've gone mad  
And there's no way out 'cause we all know you're hollow

As empires fall to pieces  
Our ashes twisting in the air  
It makes me smile to know that  
I'm better without you

Not enough, not enough  
Not enough to throw it all away  
We'd still be falling  
We're fallen  
Turn it up, turn it up  
Never gonna shut me up again  
Your time is over  
It's over now

As empires fall to pieces  
Our ashes twisting in the air  
It makes me smile to know that  
I'm, I'm better without you
