

Blind Belief

Evanescence

I believe in us
I can't remember why I believe in us
These seeds of the past they keep springing up
Love begins with trust
But we can't be trusted

Oh, The future starts with us

Blind belief are you afraid to see
That our fathers were wrong
We hold the key to redemption
Let icons fall

Dare to break away
Tear down this broken machine
Escape your cage
Were falling to pieces

Oh, The future's rising up

Blind belief are you afraid to see
That our fathers were wrong
We hold the key to redemption
Let icons fall

Push through the pain
Unbreak this system
Arms of self sacrifice
Lay them down

Blind belief
Are you afraid to see
That our fathers were wrong
We hold the key to redemption
Love over all
We hold the key to redemption
Love over all
