1. You're too important for anyone
   You play the role of all you long to be
   But I, I know who you really are
   You're the one who cries when you're alone

R: But where will you go
            B           B                    Cm
   With no one left to save you from yourself
   As             G
   You can't escape
   As    B      Cm
   You can't escape

2. You think that I can't see right through your eyes
   Scared to death to face reality
   No one seems to hear your hidden cries
   You're left to face yourself alone

R: But where will you go...

   I realize you're afraid
   But you can't abandon everyone
   You can't escape
   You don't want to escape

        E            B/Es                 D            C#
3. I'm so sick of speaking words that no one understands

   Is it clear enough that you can't live your whole life all alone?
        F#m                   D
   I can hear you when you whisper
          F#m                 D      As
   But you can't even hear me screaming

R: But where will you go...

   E F#m                    A
   I realize you're afraid
        E           F                 F#m
   But you can't reject the whole world
   D          A/C#
   You can't escape
   You won't escape
   You can't escape
       D           C#       F#m D E
   You don't want to escape
