

Daylight

EVE 6

Body shook from the trigger tone
So diminutive and complete
Slap your face to be sure it's there
Give yourself a second of relief

I mark the years
With the thing that I was sure would kill me

Blisters break and bleed for the money
Got one song and a million tunes
Scrape the string with a vortex honey
Daylight will be comin' soon
Daylight will be comin' soon

Radio for a new patrol
Rank confusion is the goal
Put it in the bin and bear it
Round out the hole and square it
I've got pain and I've got doubt
But that's alright the secret's out
There is no certainty here
Swing into darkness singin'

I mark the years
With the thing that I was sure would kill me

Blisters break and bleed for the money
Got one song and a million tunes
Scrape the string with a vortex honey
Daylight will be comin' soon
Daylight will be comin' soon

I mark the years
With the thing that I was sure would kill me

Blisters break and bleed for the money
Got one song and a million tunes
Scrape the string with a vortex honey
Daylight will be comin' soon

Blisters break and bleed for the money
Got one song and a million tunes
Scrape the string with a vortex honey
Daylight will be comin' soon
Daylight will be comin' soon
