

# Even Though

EVE 6

I wanted to make a song  
To let you know I understand  
Even though I'm big and you're small I understand  
The feelings sometimes get you  
Even though you know they're not reasonable  
Big word I know

It can be confusing  
Make you feel the odd one out

I love you even though  
Even though  
Even though

Remember you can pause and take a breath  
Some time alone is sometimes best  
To find your center and reset

When it's overwhelming  
And you feel out of control

I love you even though  
Even though  
Even though  
I love you even though  
Even though
