

# All Night

Eve

Soon as I walked in I caught his eye  
Grabbed me and said he wanna be mine  
Told him to hold up and take his time  
There's a lot of dudes waitin', so get in line  
So listen to me, I'm not a regular bird  
Gotta be special to see my world  
What you gonna do to give me thrills  
To get with E V E you gotta have skills  
So if you want it, come and get it  
Go, I'll show you things you never saw  
I can get you tickets front row to my peep show  
Can be like an animal, really can you handle, though  
Need to see that you can have it all

All I need is a beat like this  
And I lose my mind  
All I need is a girl like you  
We can go all night  
All I need is a beat like this  
And I lose my mind  
All I need is a girl like you  
We can go all night  
All night, all night  
All night, all night

You ain't ready for this boy, you know you scared  
It takes a lot to make the sexy kitty purr  
No cheap thrills over here, fuck what you heard  
Have you geekin' like Screech, nerd  
Rude boy, why you sweatin' me  
You can't even handle me  
Man you need to stop  
Can't you see I'm outta your league  
To impress me you gotta have caliber  
Put some precision in your swing, Excalibur  
I done gone pro, you still a amateur  
You could test it out, but boy you'll damage her  
Back to the drawing board, you gotta get your swag up  
You in love baby boy, man up

Shawty say it real fast, that's how she want it  
I told her I'm from Houston, understand we do it slowly  
I said her eggs was a'snaking and she wish she never known that  
I hate to break the bad news, but baby I pack the cobra  
Shots of Henny and soda, man we twist it and roll it  
From the door to the sofa, she scream my name like promoters  
She tell me that I'm the hottest  
I said correction, the coldest  
I be in it all night, she wake up makin' mimosas  
Gotta her caught in the feelings, textin' and Twitter mentions  
She givin' me up her heart, gonna be credit cards in a minute  
You are rockin' with the trillest, trillest you ever witnessed  
I swear the first time I hit it, you went in and get addicted
