

# Mama In The Kitchen

Eve

Mama in the kitchen, mama in the kitchen  
My mama in the kitchen, whipping, we flipping  
Mama in the kitchen, mama in the kitchen  
My mama in the kitchen, whipping, we flipping

A yo, I know you like it, like it, I'm winning  
Call me the lioness, I'm killing, killing competition  
I'm the one that you've been waiting on, so thrilling  
You should get a taste of this, so filling  
I'm in the kitchen with the gumbo  
Got bars, yeah, dumb flow  
I just stepped, just a force 1  
I got a life huh, you should've bought one

Mama in the kitchen, mama in the kitchen  
My mama in the kitchen, whipping, we flipping  
Mama in the kitchen, mama in the kitchen  
My mama in the kitchen, whipping, we flipping

Mega star status, it's beyond this galaxy  
You wanna glimpse Of my reality... show  
I'm fresh up out the kitchen  
Now pay attention what the world been missing  
Yo, You they say I'm the antidote, better yet the cure  
Feel the potency cause the product is pure  
Running, running through your veins, guaranteed you get addicted  
Constantly craving this audio prescription 'cause

Mama in the kitchen, mama in the kitchen  
My mama in the kitchen, whipping, we flipping  
Mama in the kitchen, mama in the kitchen  
My mama in the kitchen, whipping, we flipping

A yo, I know you like it, like it, I'm it  
You might be in the building but I've built this shit  
You just a visitor, I picked it out brick by brick  
Call me the architect of your future, now that's sick  
You said you ain't seen me often  
Well, most of my currency is foreign  
And I stay up, stay up on a plane  
Really don't matter, you could never ever touch my lane 'cause

Mama in the kitchen, mama in the kitchen  
My mama in the kitchen, whipping, we flipping  
Mama in the kitchen, mama in the kitchen  
My mama in the kitchen, whipping, we flipping
