

# No Donnie, These Men Are Nihilist

Evergreen Terrace

Pride caused the fall

Like the ashes you came from  
You'll burn the sky  
And when you're gone  
No one will cry

Drown the towns with apathy  
Set our hearts in water  
Kill the scene with treachery  
Quenching all, all of our fires

When you're gone no one will miss you  
And when you're dead no one will cry

Kiss your life goodbye  
You believe in nothing  
Kiss your life goodbye  
You believe in nothing  
Kiss your life goodbye  
You believe in nothing  
Kiss your life goodbye  
You believe in nothing
