

Forever Outsider

Evergrey

Life crossed the water
While I became the night

We ride in silence
Through the night
We are wildfire
We are the night

What it all comes down to
Was that I never felt like one of you
Light changed and so did my soul
I went from broken to whole
Still knowing that I'd always be
Forever outsider

Always felt like an orphan of shadows
Baptized at night
Always felt like a stranger to mankind

I lied across all borders to justify life
A born denier because life is a lie

What it all comes down to
Was that I never felt like one of you
Light changed and so did my soul
I went from broken to whole
Still knowing that I'd always be
Forever outsider

We crossed the main road
Through the fire
Always defied
Because life is a lie

What it all comes down to
Was that I never felt like one of you
Light changed and so did my soul
I went from broken to whole
Still knowing that I'd always be
Forever outsider
